

HIGH CHLORINE COST BLUES?

Pooltec® Cuts Chlorine Usage by 25% to 65% and More!

Why Pooltec® Reduces Chemical Usage . . .

1. Just 4 ozs. of Pooltec® weekly reduces liquid chlorine or tablet usage ... by 50% or more per 10,000 gallons (except commercial pools).
2. Strong synergy boosts chlorine effectiveness up to 600% ... allowing lower chlorine residuals.
3. Helps increase chlorine residuals in salt pools ... lowering salt cell operating time.
4. Improves water quality ... reducing chlorine shocking frequency.
5. Provides weekly algacide boost ... eliminating need for extra algacides.
6. Significantly improves water clarity ... no additional water clarifiers to buy.

How Pooltec® Can Save You Money . . .

1. Powerful synergy effect boosts water quality ... with less chemicals.
2. Provides consistently clean pools throughout service route ... saves time.
3. Improved treatment lasts longer in pool water ... Pooltec® does not evaporate.
4. Less chemical usage ... reduces chemical purchases and handling time.
5. Higher customer satisfaction ... helps to stop customer loss.
6. Pooltec® reduces treatment costs ... when compared to costly phosphate removers or other high cost additives.

Pooltec® and chlorine are the "perfect team" to lower chemical costs and boost effectiveness!
