United States of America

REVISION DATE: 05/13/2011 SUPERCEDES: 02/24/2005

MSDS Number: 000000013883 SYNONYMS: NoneNone CHEMICAL FAMILY: None

DESCRIPTION / USE None established FORMULA: None established

#### 2. HAZARDS IDENTIFICATION

OSHA Hazard Classification: Possible skin sensitizer, Eye, skin and respiratory irritant

Routes of Entry: Skin, eyes, ingestion

Chemical Interactions: No known or reported interactions.

Medical Conditions Aggravated: None known

LEISURE TIME FREE

REVISION DATE: 05/13/2011 Page 1 of 11

#### **Human Threshold Response Data**

Odor Threshold Not established for product.

Irritation Threshold Not established for product.

#### Hazardous Materials Identification System / National Fire Protection Association Classifications

Hazard Ratings :	<u>Health</u>	<u>Flammability</u>	Physical / Instability	PPI / Special hazard.
HMIS	2	0	0	
NFPA	2	0	0	

Immediate (Acute) Health Effects

Eye Toxicity:

Inhalation Toxicity: Not expected to be toxic by inhalation. Vapors and/or aerosols which

may be formed at elevated temperatures may be irritating to eyes and

upper respiratory tract.

Skin Toxicity: Not expected to be absorbed through the skin. This irritant effect would

not be expected to result in permanent damage. Skin contact may cause moderate irritation consisting of transient redness and swelling. This irritant effect would not be expected to result in permanent damage. Contact may cause moderate irritation consisting of transient redness.

swelling, and mucous membrane discharge to the conjunctiva. Any visual impairment or corneal damage (opacity) would be expected to

clear within several days.

Ingestion Toxicity: Ingestion may cause irritation of the gastrointestinal tract and

gastrointestinal discomfort with any or all of the following symptoms:

nausea, vomiting or diarrhea. Moderately toxic if swallowed.

Acute Target Organ Toxicity: May cause skin, eye and mucous membrane irritation (includes upper

respiratory tract). Ingestion may cause gastrointestinal discomfort.

#### Prolonged (Chronic) Health Effects

Carcinogenicity: This product is not known or reported to be carcinogenic by any

reference source including IARC, OSHA, NTP or EPA.

Reproductive and Developmental Toxicity:

No reproductive or developmental risk to humans is expected from exposure to this product. The active ingredient in this product has been

tested in laboratory animals and no evidence of teratogenicity or

reproductive toxicity was seen.

Inhalation: There are no known or reported effects from chronic exposure.

Skin Contact: Repeated or prolonged skin contact may cause some individuals to

develop skin rash and other skin complications due to allergic skin sensitization. PHMB when tested at 1.0% in the HRIPT, PHMB did not

produce irritation or allergic skin reactions.

Ingestion: There are no known or reported effects from chronic ingestion except for

effects similar to those experienced from single exposure.

LEISURE TIME FREE

REVISION DATE: 05/13/2011 Page 2 of 11

Sensitization: Possible skin sensitizer based on animal tests PHMB when tested at

1.0% in the HRIPT, PHMB did not produce irritation or allergic skin

reactions.

Chronic Target Organ Toxicity: There are no known or reported effects to humans from repeated

exposure to this product.

Supplemental Health Hazard

Information:

Polyaminopropyl Biguanide, the biocidal active in this product, has been extensively studied for its toxicity to mammalian systems. Repeated inhalation exposure in rats over a period of 4 weeks resulted in eye and respiratory irritation and pneumonitis. Long term feeding studies in dogs show that the liver and kidney are target organs and the effect occur only at very high doses. Polyaminopropyl Biguanide has been shown in animal studies to produce skin sensitization. Polyaminopropyl

Biguanide is not readily bioavailable if ingested and is not well absorbed through skin., PHMB when tested at 1.0% in the HRIPT, PHMB did not

produce irritation or allergic skin reactions.

#### 3. COMPOSITION / INFORMATION ON INGREDIENTS

CAS OR CHEMICAL NAME CAS # % RANGE

Water 7732-18-5

POLYAMINOPROPYL BIGUANIDE 27083-27-8

[TSCA,

AICS]/133029-32-0 [INCI]/32289-58-0 [DSL, CH, PH]

# 4. FIRST AID MEASURES

General Advice: Call a poison control center or doctor for treatment advice. For 24-hour

emergency medical assistance, call Arch Chemical Emergency Action Network at 1-800-654-6911. Have the product container or label with you when calling a

poison control center or doctor, or going for treatment.

Inhalation: IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an

ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.

Call a poison control center or doctor for further treatment advice.

Skin Contact: IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin

immediately with plenty of water for 15-20 minutes. Call a poison control center or

doctor for treatment advice.

LEISURE TIME FREE

REVISION DATE: 05/13/2011 Page 3 of 11

Eye Contact: IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20

minutes. Remove contact lenses, if present, after the first 5 minutes, then

continue rinsing eye. Call a poison control center or doctor for treatment advice. IF SWALLOWED: Call a poison control center or doctor immediately for treatment

advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give

anything by mouth to an unconscious person.

## 5. FIRE FIGHTING MEASURES

Flammability Summary (OSHA): Combustible above 93 deg. C / 200 deg. F.

Flammable Properties

Ingestion:

Flash Point: > 93 °C

> 201 °F

Fire / Explosion Hazards: Material may be ignited only if preheated to high temperatures, for

example in a fire.

Extinguishing Media: Choose extinguishing media suitable for surrounding materials.

Fire Fighting Instructions: In case of fire, use normal fire-fighting equipment and the personal protective equipment recommended in Section 8 to include a NIOSH

protective equipment recommended in Section 8 to include a NIOS approved self-contained breathing apparatus. Use water to cool

containers.

Hazardous Combustion Products: Carbon monoxide, Carbon dioxide

Upper Flammable / Explosive Limit, % in air: Not applicable Lower Flammable / Explosive Limit, % in air: Not applicable

#### 6. ACCIDENTAL RELEASE MEASURES

Personal Protection for Emergency

Situations:

Use the personal protective equipment recommended in Section 8 and a NIOSH approved self-contained breathing apparatus.

Spill Mitigation Procedures

Air Release: Hazardous concentrations in air may be found in local spill area and

immediately downwind. Vapors may be suppressed by the use of

water fog.

Water Release: Notify all downstream users of possible contamination. Divert water

flow around spill if possible and safe to do so.

Land Release: Contain spillage, soak up with non-combustible absorbent material,

(e.g. sand, earth, diatomaceous earth, vermiculite) and transfer to a container for disposal according to local / national regulations (see section 13).Do not contaminate ponds, waterways or ditches with

chemical or used container.

LEISURE TIME FREE

REVISION DATE: 05/13/2011 Page 4 of 11

Additional Spill Information: Stop source of spill as soon as possible and notify appropriate

personnel. Utilize emergency response personal protection equipment prior to the start of any response. Evacuate all nonessential personnel. Dispose of spill residues per guidelines under

Section 13, Disposal Consideration.

### 7. HANDLING AND STORAGE

Handling: Do not take internally. Avoid contact with skin, eyes and clothing.

Upon contact with skin or eyes, wash off with water. Avoid breathing (dust, vapor, mist, gas). Minimize dust generation and accumulation.

Storage: Store in a cool, dry and well ventilated place. Keep containers tightly

closed when not in use.

### 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Ventilation: Local exhaust ventilation is recommended if vapors, mists or aerosols are

generated. Otherwise, use general exhaust ventilation.

Protective Equipment for Routine Use of Product

Respiratory Protection: If vapors, mists or aerosols are generated, wear a NIOSH approved

respirator., A NIOSH approved disposable P95 Acid Gases Respirator with

Exhalation Valve.

Skin Protection: Use impervious gloves. When exposure to high concentrations are

prolonged or repeated use protective boots and apron in addition to gloves.

Eye Protection: Use chemical goggles.

Protective Clothing Type: Impervious

General Protective An eye wash and safety shower should be provided in the immediate work

Measures: area.

**BIGUANIDE** 

Component Animal Toxicology

Inhalation LC50 value:

POLYAMINOPROPYL

**BIGUANIDE** 

This product has been tested for acute inhalation toxicity. However, due to the physical nature of the product, an aerosol dust of desired particle size could not be generated. Therefore, no animals could be exposed and no LC50 could

be obtained.

**Product Animal Toxicity** 

Oral LD50 value: LD50 Approximately 2,500 mg/kg rat femaleLD50 Approximately 2,700

mg/kg rat male

LD50 > 2,000 mg/kg rabbit Dermal LD50 value:

Inhalation LC50

no data available

value:

Skin Irritation: Moderate Skin Irritant

Eye Irritation: This material is expected to be moderately irritating.

Possible skin sensitizer based on animal tests, PHMB when tested at 1.0% in the Skin Sensitization:

HRIPT, PHMB did not produce irritation or allergic skin reactions.

Acute Toxicity: May cause skin, eye and mucous membrane irritation (includes upper respiratory

tract). Ingestion may cause gastrointestinal discomfort.

Subchronic / Chronic

Toxicity:

Not known or reported to cause subchronic or chronic toxicity.

Reproductive and

**Developmental Toxicity:** 

No reproductive or developmental risk to humans is expected from exposure to this product. The active ingredient in this product has been tested in

laboratory animals and no evidence of teratogenicity or reproductive toxicity

was seen.

POLYAMINOPROPYL BIGUANIDE This chemical has been tested in laboratory animals

and there was no evidence of reproductive toxicity or

teratogenicity.

Mutagenicity: Not known or reported to be mutagenic. The active ingredient in this product

has been tested in a battery of mutagenicity assays and was found to be

non-mutagenic under the conditions of the tests.

POLYAMINOPROPYL BIGUANIDE This chemical has been tested in a battery of

mutagenicity/genotoxicity assays and the results were

negative.

LEISURE TIME FREE

Page 7 of 11 REVISION DATE: 05/13/2011

Carcinogenicity: This product is not known or reported to be carcinogenic by any reference

source including IARC, OSHA, NTP or EPA.

POLYAMINOPROPYL BIGUANIDE PHMB, when administered to mice at very high doses,

induced an increased incidence of cancer in mice. Under the conditions of anticipated use of this product,

PHMB does not represent a risk to man.

#### 12. ECOLOGICAL INFORMATION

Overview: Ecotoxicity: Polyaminopropyl Biguanide is highly/very toxic to aquatic species. It

is unlikely to bioaccumulate or persist in the aquatic environment.,

Environmental fate: Polyaminopropyl Biguanide will be predominantly absorbed

onto sludge solids; the remainder is unlikely to be readily or inherently

biodegraded or abiotically degraded with the exception of low molecular weight species., Polyaminopropyl Biguanide could be slightly inhibitory to sewage treatment systems. However, at the low concentrations typically discharged to

and received by treatment systems, adverse impacts are unlikely. Polyaminopropyl Biguanide is unlikely to adversely affect plants or soil

indigenous species.

#### Ecological Toxicity Values for: POLYAMINOPROPYL BIGUANIDE

Rainbow trout (Salmo gairdneri), 96 h LC50 = 0.026 mg/l96 h LC50 0.11 mg/l Bluegill sunfish

Fish chronic toxicity The No Observable Effect Concentration

(NOEC): = 0.010 mg/l

chronic toxicity The Lowest Observable Effect Concentration Fish

(LOEC): > 0.010 mg/l

48 h EC50= 0.04 mg/l

Daphnia magna, Brown Shrimp 96 h LC50= 9 mg/l

Daphnia magna, 21 day NOEC (chronic toxicity) The No Observable Effect

Concentration (NOEC):= 0.0036 mg/l

96 h EC50 = 0.49 - 0.87 mg/lGreen algae,

In an assessment of the effect of PHMB on nitrification of

activated sludge micro-organisms the 4hr EC50 was 38 mg/l

and the NOEC = 12 mg/l.

### 13. DISPOSAL CONSIDERATIONS

CARE MUST BE TAKEN TO PREVENT ENVIRONMENTAL CONTAMINATION FROM THE USE OF THE MATERIAL. THE USER OF THE MATERIAL HAS THE RESPONSIBILITY TO DISPOSE OF UNUSED MATERIAL, RESIDUES AND CONTAINERS IN COMPLIANCE WITH ALL RELEVANT LOCAL, STATE AND FEDERAL LAWS AND REGULATIONS REGARDING TREATMENT, STORAGE AND DISPOSAL FOR HAZARDOUS AND NONHAZARDOUS WASTES.

Waste Disposal Summary: Spent or discarded material is not expected to be a hazardous

waste.

Disposal Methods: As a nonhazardous waste, it should be disposed of in accordance

with local, state and federal regulations.

#### 14. TRANSPORT INFORMATION

Land (US DOT): UN3082 ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S.

(POLYAMINOPROPYL BIGUANIDE) 9 III

Water (IMDG): UN3082 ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S.,
